Dedication

Dear Mrs. Suitt,

You were selected among the many who are so dear to our hearts, as one, who justly and proficiently deserves what signal honor and distinction that this class might have to impart. So to you Mrs. Suitt, with the blessings of Almighty God, we the members of this senior class dedicate this, our Nineteen Hundred and Sixty-five Annual.

As you, undoubtedly, will turn these pages within the years to come, we trust that you will accept this tribute as a token of our thanks for the stern hand of guidance and inspiration that you gave to us immeasurably. With it we hope that you will think gently upon us as we do upon you in this final hour.

Yours truly,

Foreword

School days, with all their many splendors, swiftly pass, and in their passing, many of our most precious moments partially fade and dwindle aloof into the deepest crevices of yesteryears. Occasionally, we are haunted by faint memories of those that are buried within the remote shadows of our subconscious minds, and out of a desperate longing for their return we try to recall upon them again.

Among the historical pages of this year's "LION" the fascinating story of the Senior Class of 1965 is brought back clearly into focus and relative events are reviewed to us out of the depths of our imaginations as we lived them. Each picture, each printed word is but a small slice of life that we, securely, wish to keep aglow forever.

MISS S.B. YARBOROUGH

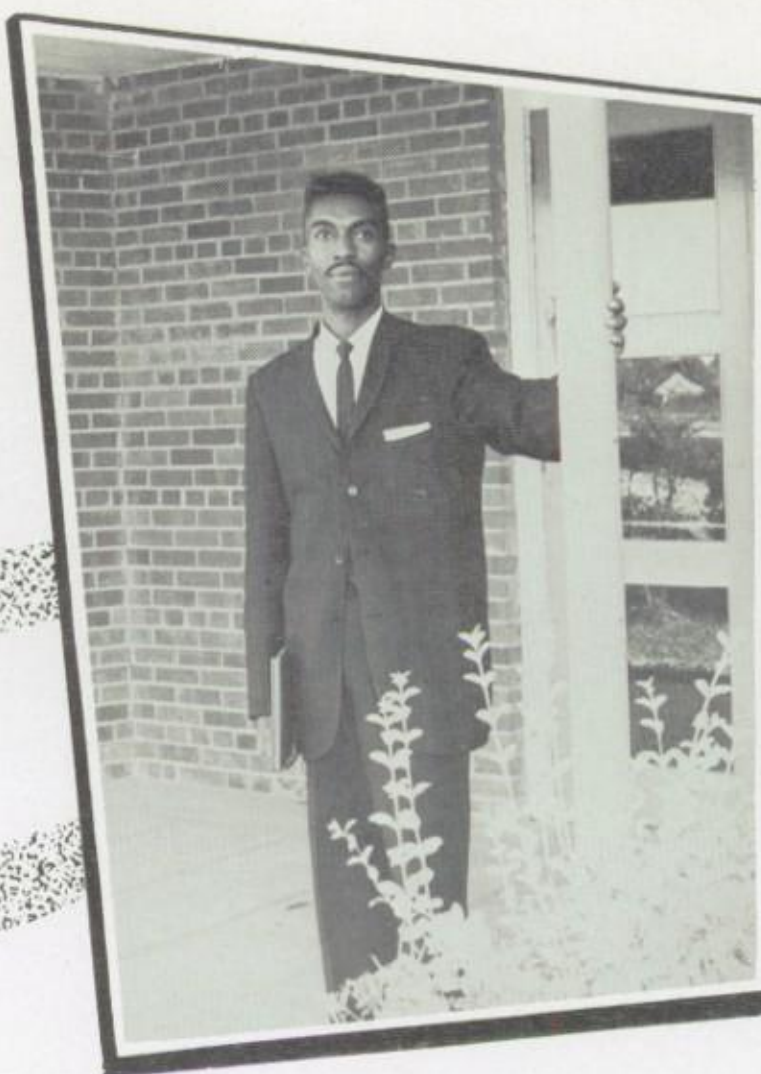

To the members of the Class of 1965:

Congratulations as you prepare to join the ranks of loyal alumni of Perry's High School. I also wish to commend you for bringing into fruition this excellent year-book which is a condensation of your thoughts, deeds, and efforts. I feel certain that the experiences, growth and development you encountered as you labored to make this bring about a better life in a better world.

Remember all life is growth; all labor is progress; all effort is development. There is no standing still in nature, and there can be no standing still in life. We go on, and on to the realization of the "better things." What these better things may be, we cannot now satisfactorily say. However, to most of you, we hope it means advance school work, and a more complete preparation for still "better things" in the active world of life and work. But whatever it means we feel certain that the experiences gained here as you lived and participated in activities will be a tremendous force in helping you develop those qualities which will help you act well your part and assist you in reaching your optimum development in relationship to your abilities and interest.

Best wishes.

J. E. Wilson, Principal

To my beloved sons and daughters:

During the past few years it has been my privilege to work hand in hand with each of you. For so many of the little mischievous pranks which you committed, time and time again, I was called upon to bear the responsibility, while, likewise, in every honor that you attained I shared admirably a part of that glory with you.

Now time and circumstances demand that the ole paternal hand be lifted and the harsh critics of a hard cruel world await impatiently for your future performances. How well you will do will depend much upon how well you will put into practice your past profitable experiences. Will you promise me that you will always be mindful of this?

The entire faculty and staff of the Perry's High School join with me in wishing you well. Each of us knows that should you fail in what course of life you endeavor to pursue then we, too, will have failed, but should you succeed in some small way, then we, too, shall reap a reward which will shine out radiantly bright among all of our most worthy accomplishments and the mere thought of your victory will tell us that our concern, effort, and time spent with you were not in vain.

God be with you.

CLASS MOTTO "Our greatest glory is not in never falling but to rise up every time we fall."

Class History

Our four years as high school students at Perry's High School may be historically viewed as four of the most eventful years of our entire lives. Within these years we not only watched history in the making take its present form, but we were responsible for helping to shape it into the form it became.

Our first year of high school began in the fall of 1961 under the supervision of Mrs. H. B. Spruill and Mr. J. E. Hall. As freshmen usually are, we were giddy and full of life, and often times as characterized by our teachers, we were most too full of it. We attributed this, however, to a part of growing up and we enjoyed every moment of it.

The year of 1962 was, indeed, a glorious year for us. Out of a class enrollment of some seventy persons that year we were fortunate to have from our class Ella Cle Williams crowned as "Perry's High School May Day Queen" and Nancy Ogretta Boone crowned as "Miss Freshman." These were, indeed, exciting moments for us, but like our joyous moments there were, also, moments of sadness. One of such was the auto-accident of Leroy Alston, a member of our class, which resulted in a tragedy. We were all seriously stung beyond repair.

We began our second year as sophomores under the supervision of Mrs. B. S. Artis and Mr. J. E. Hall and in the derivative meaning of the word sophomores we were truly the wise fools. We thought that we knew everything or at least almost everything, but we soon found out after digging deeply into English, mathematics, history, science and French just how little we really did know.

Our sophomore year was an unusual year in that we had many of our classmates to transfer to other schools, some to drop out and some from other schools to become members of our class. This was a year which demanded of us many adjustments.

We started out our third year in the fall of 1963 again under the supervision of Mrs. B. S. Artis and Mr. J. E. Hall. As juniors this year we were looking forward to entertaining the seniors with the Annual Junior-Senior Prom. We got started early with our plans and utilized our talents into making the prom one of the most attractive events during the entire school year. Our theme for the occasion was "FANTASY OF THE SEA" and the gymnasium was colorfully decorated to well represent this title.

The most exciting year of our high school career had its beginning in the fall of 1964 when we started out as seniors. Both sections of the twelfth grade combined into one group under the supervision of Mr. J. E. Hall. We were happy to get started this year with the enrollment of a former student, Annie Blanche Stokes. She joined with the others of us in our active participation as members in the numerous school clubs, as officers in some of them and as players in the various sports.

The record of this class closes with it holding the distinction of being the largest class ever to be graduated from Perry's High School. With an enrollment of 22 boys and 23 girls this class sings praises to 45 members.

Class Prophecy

The other day while en route to my home after leaving my secretarial job for the day in the rotunda of the Nation's Capitol, I saw, as I passed through a quaint little village, a little sign posted in a partially broken window which read, "Mammie the Gypsy Knows Everything." It was not enough for me to read it and then continue on my way, but my curiosity made me pause for a moment and then go inside to see what Mammie, if there were such a person, really did know.

I was greeted by a homely little old lady whose face wore a sly grin, but who motioned for me to take a seat on the other side of the table from which she sat. Once seated, before I could speak to her, she said to me, "your name is Pattie and the crystal ball in which I hold in the palm of my hand tells me that you would be interested in knowing what worthwhile things that your classmates are doing and will do in this wretched world of ours." I was startled, but I watched eager-eyed and listened carefully as she proceeded.

"The time is ten years from now, she said. Cora Wardrick is a Baptist Missionary at work near the home of the most famous gospel singers in the world, Johnnie Bullock and John Alston. Ole Hinton Williams, that character she grinned, is an United States Air Force Officer stationed in Russia. Matthew Hawkins, a Real Estate Agent, has just sold Roy Leonard, a Federal Judge of the Supreme Court, a fifty thousand dollar ranch in California. Clementine Alston, he, he, he, she laughed, with her glamorous self, is now starring in "For Better or For Worse," the latest on Broadway. In New York Nancy Boone, an author, has just published her first novel entitled, "Women."

"Now the big news is yet to come, she chuckled. The 1975 Jet Ford has just been declared the winner of the Fastest Car Championship Award. Otis Stokes was the driver. Oh! this might be of some interest to you, she added. Lottie Alston has married and settled down as a housewife with twelve children. William Carroll, her husband, says that they are cheaper by the dozen. Earnest Brodie and Glenn Bullock have recently become known as the greatest wrestlers in the world. They made a loan of \$100,000 to David Long, an Agricultural Engineer, who is doing a thorough study on the cotton seed at the Institute for Research in North Carolina, and he is president of it."

Still viewing into the crystal ball the gypsy continued on with her prophecy. "Look at that she giggled, there is William Alston, Principal of Perry's High School, teaching a second year algebra class. Wow! Queenie Lassiter is doing alright too. She has a rich husband, two cars, three French Poodles, and everything a rich girl could want. I see something else in the crystal ball, she shouted out. Betty Massenburg has gotten to be Miss America. Look at the men around her. Here is something else that will top that. Robert Anderson and Robert Wright, two well known scientists, have just returned from Mars. All the newspapers are carrying the story along with advertisements of the coming debate between Frank Jones the World's Heavyweight Champion and Linda Perry, the Secretary of Health and Welfare. I see, also, that Mary Perry has just re-established the New York Girl's Club, which will be exclusively used by women in high society. Mack Lynch, believe it or not, is a prominent lawyer and he will be in Mississippi soon to help advise Ella Williams in some legal matters. He is engaged to either Bernice or Vernice Richardson, both of whom are in the Peace Corp serving in Cuba today.

Annie Stokes is still President of the NAACP, and Lillie Edgerton is working as her secretary in Texas. Julia Alston is now a model in Madam Lourve Place En Paris. Ruth Alston, a beautician and Oliver Long, a barber, have formed what is known as Alston and Long Solon. Obetcher Wright, Eula Alston and Pearline Livingston are now owners of a large housing project in Seattle, Washington. Billy Wilkins, who owns a large trucking firm, frequently does business with them. He has an eye on one of them.

"Elna Alston, a news commentator, has just presented a most shocking report: The President of the United States, Gloria Collins and the former President Ezekiel Massenburg, now a world known evangelist will discuss "Religion and Automation" tonight along with the Ambassador to France, James Wardrick. She, also, announced that an eighth grade science class and their teacher, Joseph Tucker, found a cure for headaches. This information will be checked by some special investigators soon. Earl Wilson, an artist whose works are found in many homes, has his best seller out, "A Peaceful Home." This is his one-hundredth painting. He did a special portrait of Douglas Harris, the Senator of Florida, sometime ago. Senator Harris is presently vacationing in England."

"From all points of view you can see that the class of '65' has been successful in their strive to survive in a growing society, the old lady chuckled." I paid her five dollars and quickly went my way.

Class Will

Part I

We the members of the Senior Class of Perry's High School, being of both sound minds and bodies, do hereby devise, bequeath, and publish this to be our last will and testament:

To our principal, Mr. J. E. Wilson, we leave our best wishes in the making of Perry's High School the best school ever.

To our advisor, Mr. Hall, we impart humble thanks for his wise guidance through the last four years.

To our French and English teachers, Miss Alston and Mr. Frison, we leave our hard work and fun to be passed on to the Junior Class.

To our algebra teachers, Mr. Wilson and Mr. Dunston, we leave our seats to be filled with better algebra students.

To our physical education teachers, Mr. Levister and Mr. Alston, we will our hope that they may win all future contests.

To Mrs. Liles, Mr. Hayes, and Mr. Alston, our science teachers, we will our science projects to be given to science students in the coming years.

To our home economic teacher, Mrs. Liles, we leave our good manners and recipes to the Home Economic Club.

To our history teachers, Miss Lawrence and Mr. Hall, we leave pre-historic man and famous Negroes to be taught to the Junior Class.

To Mr. Levister, Mr. Alston, Mr. Frison, Mrs. Frison, and Miss Perry, our basketball coaches, we leave our uniforms to the Junior Varsity Team.

To all other administrative, faculty, and staff members of our beloved school, we will our best wishes to you throughout the coming years.

The members of the Senior Class and their advisor wish to express their sincere gratitude to their many patrons, advertisers and friends who helped to make the 1965 publication of the Perry's High School Lion possible through their generous contributions.

We solicit the public's patronage for our advertisers whom we feel deserve much more than a word of thanks.
